

STEFANO MASNERI

Senior AI/ML Leader

[LinkedIn](#) | [Publications](#) | [GitHub](#)

SUMMARY

AI/ML Engineering Leader with 15+ years of experience building and managing high-performing teams in GenAI, Computer Vision, and production ML systems. Led cross-functional teams of up to 9 engineers delivering enterprise AI solutions. PhD in Computer Science with 30+ publications. Proven track record transitioning research to production, managing stakeholders, and mentoring technical talent in LLMs, RAG, agentic systems, Computer Vision, and 3D reconstruction.

PROFESSIONAL EXPERIENCE

SENIOR AI ENGINEER — MEDIAPRO

Apr 2024 – Present | Donostia, Spain

- Developing an agentic platform for automated creation of AI-generated commercials
- Designed and deployed GenAI solutions for audiovisual production, such as automatic detection of commercials in sports events
- Developed computer vision pipelines for 3D reconstruction using NeRFs and Gaussian Splats

TECHNICAL MANAGER — NTT DATA

Feb 2022 – Apr 2024 | Bilbao, Spain

- Technical project management for generative AI projects
- Led a team of 9 (data engineers, data scientists, MLOps engineers, AI strategists)
- Contributed to the preparation of project proposals
- Commercial support for clients and partners

RESEARCHER — VICOMTECH

May 2018 – Feb 2022 | Donostia, Spain

- Coordinated H2020/Horizon Europe projects with international partners
- Developed collaborative AR platform using computer vision and web technologies for educational applications
- Completed PhD (cum laude) on a novel architecture for collaborative AR experiences in education, publishing 10+ papers during this period

SENIOR DATA SCIENTIST — AGT INTERNATIONAL

Apr 2017 – Apr 2018 | Darmstadt, Germany

- Product owner for the video analytics department
- Developed computer vision and deep learning algorithms for sport video data
- Technology transfer, productization and patenting of internal research software

SCIENTIFIC SOFTWARE DEVELOPER — MPI FOR BRAIN RESEARCH

Sep 2015 – Mar 2017 | Frankfurt, Germany

- Developed computer vision, machine learning, image and video processing algorithms

- Managed software and technical documentation

RESEARCH ASSOCIATE — FRAUNHOFER HEINRICH HERTZ INSTITUT

Oct 2009 – Jun 2015 | Berlin, Germany

- Contributed to the FP7 European project inEvent and to the national projects AVATech and AUVIS
- Developed computer vision, machine learning and video processing algorithms

RESEARCH ASSOCIATE — CNIT

Apr 2008 – Jul 2009 | Brescia, Italy

- Contributed to the FP6 European project RUSHES and to the Digital-TV project in partnership with Telecom Italia
- Developed software for image processing and pattern recognition algorithms

EDUCATION

Ph.D. in Computer Science — Euskal Herriko Unibertsitatea | 2019 – 2024 | cum laude

Thesis: “A Novel Architecture for Collaborative Augmented Reality Experiences for Education”

M.Sc. in Telecommunications — Università degli Studi di Brescia, Italy | 2005 – 2008 | 97/110

B.Sc. in Information Technology — Università degli Studi di Brescia, Italy | 2000 – 2005 | 96/110

MANAGEMENT & LEADERSHIP

Hiring & People Development: Recruited, onboarded, and grew engineering teams; managed performance reviews and career paths

Delivery Track Record: 10+ AI/ML projects delivered on time and within budget using Agile/Scrum

Technical Mentoring: Conducted 20+ training sessions on GenAI, Computer Vision, and ML best practices

Stakeholder Coordination: Managed cross-functional teams and coordinated international research consortia

TECHNICAL SKILLS

GenAI & LLMs: RAG architectures, agentic workflows and tool use (LangChain, MCP), fine-tuning (LoRA, QLoRA, PEFT), prompt engineering, LLM evaluation and guardrails, OpenAI/Anthropic APIs, Hugging Face, vLLM, llama.cpp

Computer Vision: VLMs and multimodal models, 3D reconstruction (NeRF, Gaussian Splatting), SLAM, video processing, AR, OpenCV, FFmpeg

ML & Cloud: PyTorch, TensorFlow, Docker, Kubernetes, CI/CD, MLflow, model serving and monitoring, vector DBs (FAISS, pgvector), GCP, Azure

Programming Languages: Python, C++, C, TypeScript, SQL, Matlab, R, Git

TEACHING & PUBLICATIONS

Guest Lecturer — ISDI Business School | Apr 2024 – Apr 2025 | Barcelona | Teaching computer vision and AI to MBA and MIB students

Publications: 30+ peer-reviewed papers in AI, CV, and AR: [Google Scholar](#) | [ORCID](#)
