

STEFANO MASNERI

SENIOR AI/ML LEADER

[LinkedIn](#) | [Publications](#) | [GitHub](#)

SUMMARY

AI/ML Engineering Leader with 15+ years of experience building and managing high-performing teams in GenAI, Computer Vision, and production ML systems. Led cross-functional teams of up to 9 engineers delivering enterprise AI solutions. PhD in Computer Science with 40+ publications. Proven track record transitioning research to production, managing stakeholders, and mentoring technical talent in LLMs, RAG, Computer Vision, and 3D reconstruction.

PROFESSIONAL EXPERIENCE

SENIOR AI ENGINEER — MEDIAPRO

Apr 2024 – Present | Donostia, Spain

- Designed and deployed GenAI solutions for audiovisual production, such as automatic highlight detection in sports events and a chatbot for movie script analysis
- Developed computer vision pipelines for 3D reconstruction using NeRFs and Gaussian Splats, used by the Virtual Production team to cut shooting times and costs
- Transitioned research PoCs into production workflows used by 500+ users

TECHNICAL MANAGER — NTT DATA

Feb 2022 – Apr 2024 | Bilbao, Spain

- Technical project management for generative AI projects in banking, media, and energy sectors
- Led a team of 9 (data engineers, data scientists, MLOps engineers, AI strategists)
- Contributed to the preparation of project proposals
- Commercial support for clients and partners

RESEARCHER — VICOMTECH

May 2018 – Feb 2022 | Donostia, Spain

- Coordinated H2020/Horizon Europe projects with international partners, securing €600K in funding across 2 projects
- Developed collaborative AR platform using computer vision and web technologies for educational applications

- Completed PhD (cum laude) on a novel architecture for collaborative AR experiences in education, publishing 10+ papers during this period

PREVIOUS ROLES (2009-2018)

Senior Data Scientist — AGT International — Darmstadt (2017-2018)

Scientific Software Developer — MPI for Brain Research — Frankfurt (2015-2017)

Research Associate — Fraunhofer Heinrich Hertz Institut — Berlin (2009-2015)

Research Associate — CNIT — Brescia (2008-2009)

EDUCATION

Ph.D. in Computer Science — Euskal Herriko Unibertsitatea | 2019-2024 | **cum laude**

Thesis: "A Novel Architecture for Collaborative Augmented Reality Experiences for Education"

M.Sc. in Telecommunications — Università degli Studi di Brescia, Italy | 2005-2008 | 97/110

B.Sc. in Information Technology — Università degli Studi di Brescia, Italy | 2000-2005 | 96/110

MANAGEMENT & LEADERSHIP

Hiring & People Development: Recruited, onboarded, and grew engineering teams; managed performance reviews and career paths

Delivery Track Record: 10+ AI/ML projects delivered on time and within budget using Agile/Scrum

Technical Mentoring: Conducted 20+ training sessions on GenAI, Computer Vision, and ML best practices

Stakeholder Coordination: Managed cross-functional teams and coordinated international research consortia

TECHNICAL SKILLS

GenAI & LLMs: Fine-tuning (LoRA, QLoRA), RAG Systems, LangChain, Vector DBs, Prompt Engineering, LLM Evaluation, OpenAI/Claude APIs, llama.cpp

Computer Vision: VLMs, SLAM, 3D Reconstruction, Video Processing, AR, OpenCV, FFmpeg

ML & Cloud: PyTorch, TensorFlow, Hugging Face, Docker, Kubernetes, CI/CD, MLOps, GCP, Azure

Programming Languages: Python, C++, C, Matlab, R, Typescript

TEACHING & PUBLICATIONS

Guest Lecturer — ISDI Business School | Apr 2024 - Present | Barcelona | Teaching computer vision and AI to MBA and MIB students

Publications: 40+ peer-reviewed papers in AI, CV, and AR: [Google Scholar](#) | [ORCID](#)
